## 1.1.01 Projects, Programs, and Portfolios

🔖 Bookmark this page

As someone working in Microsoft's Project Portfolio Management solution, you are likely involved with the management of projects, programs, or portfolios.

These three project management related terms are defined as follows.

| PPM Categories | Description   |
|----------------|---|
| Project        | A temporary endeavor undertaken to create a unique product, service, or result.   |
| Program        | A group of related projects managed in a coordinated way to obtain benefits and control that are otherwise unavailable when managed individually.           |
| Portfolio      | A collection of projects or programs and other work grouped together to facilitate effective management of that work to meet strategic business objectives. |
